Winter Training Programme

November 2020

WWW.ARCHERYGB.ORG

Introduction

Archers, coaches and club officials of all levels are hungry to receive information in helping them learn and advance the sport.

This Winter Training Programme offers online support to strengthen members and clubs to grow our sport. It builds on the success of previous events run in person, and should allow delegates to grow, and share their knowledge and experience.

Progression of archers through our sport is a key priority for Archery GB. All archers want to experience achievement, enjoyment and a sense of progress in their personal development. It could also help in attracting new volunteers, as we seek to be better placed to respond to the current situation.

Who should attend?

Most of the webinars are open to all members. Some are tailored to specific role-holders such as coaches, people running clubs, those who organise competitive opportunities for archers, or other club officials. Webinars are a great way to encourage new people to consider new roles within the club.

Members wishing to book should please book a place through their members' online portal. Please look for the webinar you wish to book under the 'Courses' listed.

Online considerations

Most webinars will include a chance to be fully interactive, therefore a laptop/PC/tablet is recommended, but smartphone may also be possible- with limited functionality in some cases. The device must have access to a microphone to be able to interact during the session.

Ideally participants would have good WIFI access, and an environment with limited distractions which is conducive to learning.

It is recommended to log into the webinar around 5-10 minutes ahead of the designated start time, to overcome any technical difficulties logging in.
