# *What's coming up in 2018*

- **Proposed** WA Rule Changes from 1<sup>st</sup> April 2018
  - In Para Archery events the time for individual alternate shooting will be 30 seconds rather than 20 seconds. This will only apply at Para only events such as the Disabled National Championships, it will not apply to a Para athlete shooting in a general Head to Head event.
  - In matchplay an athlete or team do not have to shoot their final arrow(s) if they are unable to win. So if their opponent has finished and has more than a 10 point advantage they do not have to shoot the last arrow. This decision is down to the archer or team, not up to the Judge, and if they want to shoot their final arrow they can. World Archery Judge Committee are looking into how this change will work practically, for example how will the DOS know, so we will follow their lead.
  - Change to Ties [this is being trialled at WA events, not sure when it will be implemented] – if both recurve archers shoot a 10 or both compound archers shoot an X10 in a shoot off, then a second arrow will be shot and the arrow nearest the middle will win. In these cases it would be best to go to the target to confirm they have both shoot a 10 (recurve) or X (compound) and make the Shoot Off signal and then remove the arrows from the target and check the pinhole is still intact to remove any chance of confusion if the second arrow needs to be measured.
