Reason for non ratification....

Valid claims for SCAS Target Records must conform with these Rules and Policies:

Eligibility of Submissions:
Regional Records may only be claimed for scores shot at Tournaments, or properly organised Matches where at least two opposing teams are taking part, which in all cases must be organised and controlled in accordance with the Archery GB / GNAS Rules of Shooting. In particular an appropriate level of judging must have been enforced, and claimants must not have recorded their own scores.

Scope of Records:
Records are kept of Female and Male Junior and Senior Archers shooting Recurve (Freestyle), Compound (Unlimited), Recurve Barebow and Longbow styles as defined in the Rules of Shooting.

Ratification Rules:
Records will be recognised for the first archer to achieve an eligible score. To be acceptable, all claims must be at least one point greater than the existing record.
Records will only be ratified for one claimant UNLESS two identical eligible scores are shot on the same day.

Use of Multiple-Face Targets:
There will be no distinction between rounds shot on single-centre faces and on multiple-centre faces.

Subsequent Single Rounds:
Rounds which are not the first round shot on the day will be ratified so long as the circumstances comply with the Rules of Shooting.

Shorter Rounds nested inside Longer Rounds:
The Rules of Shooting permit claims to be made for shorter rounds which make up part of a longer round so long as no record claim is being made for the longer round as a whole for the same day. SCAS will ratify claims which comply with current rules on this issue.
